

**PLATFORM OF VOCATIONAL EXCELLENCE WATER - Scale up project
Seminar program for specialists in the water sector of the Baltic region
ESTONIA 25 –26 April 2024**

About PoVe Water

Platform of Vocational Excellence Water

Implementing a new way of educating people to make sure they are the sustainable water sector professionals that society and the labour market needs.

Our why

PoVE Water operates in a society in transition, where values such as sustainability, corporate responsibility and social value creation are becoming increasingly important. This development goes hand in hand with trends in the water sector labour market. The sustainable availability of people and the utilisation and further development of available talent are becoming central. Twenty-three partners from Europe and South-Africa work together with this vision in mind, convinced that a new way of educating people is needed to make sure they are the agile and sustainable water sector professionals that our society and the labour market needs.
